

OUR VISION

To be a premier machine tools organization providing

- State-of-the-art technology
- Customized Solutions
- Excellent Services

OUR MISSION

- To be the link between our principals technologically advanced machinery and cutting-edge know-how, and to translate those into customized solutions for our valued customers.
- To provide one-stop services encompassing turn key solutions, machine applications, installation and maintenance through our professional team of experienced and well-trained specialists.
- To form partnerships with customers and principals whose overall mission parallels that of ours: Excellence in Quality, Reliability, Performance, Technology and Customer Service.

Manufacturing in India is marching towards excellence and world class standards. This could be possible with Flexspeed Technology's services and support in bringing the world's best Machine Tools to Indian Manufacturers.

Flexspeed provides a comprehensive range of technologically advanced precision milling, machining, horizontal lathes, vertical lathes, floor type boring machines, horizontal machining centers as well as productivity enhancing engineering solutions, engineering and process optimization projects for customers in the automotive, aerospace, wind energy, power generation, oil & gas, marine, mold & dies and precision engineering industry.

Innovative Turnkey Solutions

Flexspeed Team with its expertise and long experience provides complete innovative turnkey solutions for your manufacturing needs

Providing **Total Machine Tools Solutions Beyond Expectation** will make the difference.

To know more about our range of machining solutions, please call us or write to us.

FLEXSPEED TECHNOLOGY(INDIA) PVT. LTD.
Solutions Beyond Expectation

Plot No:66, Door No.15 Kattabomman Street, Alwarthiru Nagar, Chennai - 600 087.
